

pushbuttons

compact 2

Compact 2 Button

The Compact 2 Button is the principal pushbutton within our range and is offered with a huge range of styles. The key element of the Compact 2 is the body, which is designed to have a very long life, in excess of 10 million operations and to be extremely robust and vandal resistant. LED illuminators plug into the back of the body and there is a huge range of single, dual and bi-colour options to choose from.

The pressel and surround clip to the front of the body and it is these two parts that generate the frontal appearance. We have many different shapes, styles and finishes of pressel and surround to meet the requirements of end users and to suit different codes around the world.

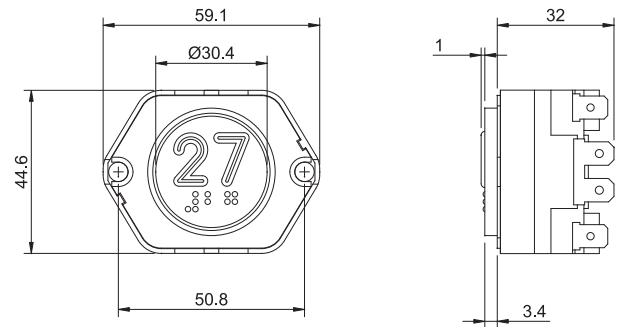

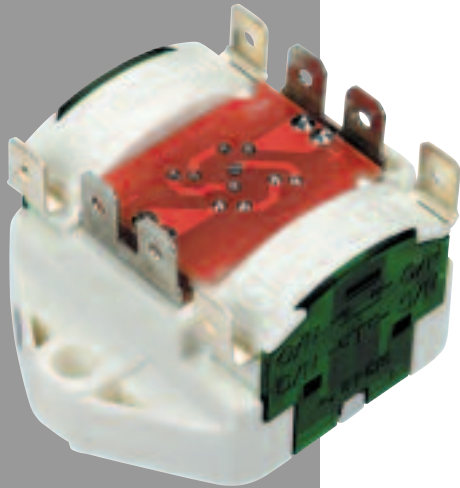

key features

- Large choice of styles
- Legend and halo illumination
- Single, dual and bi-colour illumination
- Vandal resistant
- Highly durable
